II. CORD TISSUE VALIDATION DESCRIPTION

1. If the biological material is stored in the Laboratory and the Clients have not chosen any other service offered by FCS, the commencement of isolation of multipotential mesenchymal stem cells in an accredited laboratory in the performance of the service Cord Tissue Validation will take place within 10 months from the date of signing this Annex. Otherwise, in particular when the Clients have also chosen other services provided by FCS or when the Biological Material is stored in a different location, FCS is entitled to change the above date of commencement of the service provision, in particular to extend the time needed to perform another service chosen by the Clients or transport the Child's Biological Material to the appropriate accredited laboratory providing the service. In such a case, FCS will inform the Clients about the new deadline for the service.

2. The implementation of Cord Tissue Validation involves the defrosting of one portion of the Umbilical Cord stored by the Customers which the Customers order, acknowledge and declare being aware that the decision in this regard cannot be withdrawn or revoked. In addition, Customers acknowledge that in the event of ineffectiveness of the service, they consent to the disposal of that portion of the umbilical cord that was used to perform the service. To the extent permitted by the mandatory provisions of law, FCS shall not be liable for the loss of a portion of the Umbilical Cord due to the above-mentioned reason and the ineffectiveness of the Cord Tissue Validation service. The disposal of the umbilical cord portion does not involve any additional fees for customers. The ineffectiveness of the service is understood as the failure to isolate at least 0.5 million stem cells. As a result of the successful performance of the ordered service a specimen with isolated stem cells will be created which, provided that at least 0.5 million stem cells are isolated, is sent for storage. As confirmation of the service, FCS will send customers a certificate confirming the number of isolated live stem cells in an electronic form.

3. If the stem cells are not isolated from the umbilical cord portion in the amount indicated in paragraph 3, the certificate will not be issued. In this case, the customer will receive information about the ineffectiveness of the service to the e-mail address provided.

3.1. If the stem cells are not isolated from the umbilical cord portion in the amount indicated in paragraph 3 and when Parents are willing and where it is possible for the Child or patients being the Child's relatives (only Child's biological siblings, Child's biological parents and biological grandparents) to undergo experimental medical treatment with an advanced therapy medicinal product of mesenchymal stem cells from material from an honorary donor if such material is available, FCS guarantees to the Parents that the healthcare entity conducting the experimental medical treatment shall grant the Parents a discount due to the fact that the medicinal product of mesenchymal stem cells from the Umbilical Cord (MSC cells) was manufactured by a company from the FCS' capital group. Discount will be granted for the fees resulting from no more than five medicinal product of mesenchymal stem cells from the Umbilical Cord (MSC cells) administrations. Discounts shall be provided as an amount, depending on the type of Biological Material stored by the Parents with FCS, and the final discount shall be determined individually by the healthcare entity, depending on the updated cost of manufacturing quantity of cells necessary for the experimental treatment. Information on discounts already granted and a list of healthcare entities that provide them may be obtained from the FCS' Medical Director.

4. The condition for attempting to implement Cord Tissue Validation service is the Customer's possession of confirmation of the storage of the frozen Umbilical Cord in the Laboratory or other laboratories of the FamiCord Group and a negative result of the Parent-Mother's blood tests in terms of: HIV, HBV, HCV, Syphilis.

In the case of provision of the Cord Tissue Validation service before the elapse of the 14 (fourteen) days rescission period, the Customers shall not be entitled to rescind the Annex. In the event of rescission from the Annex within 14 (fourteen) days rescission period, Customers will be obliged to pay the amount calculated in proportion to the extent of the service rendered up to the date of rescission if the payment for Cord Tissue Validation has not been made by the date of rescission, and if the payment for Cord Tissue Validation has been made before the date of rescission, FCS will reimburse Customers an amount of the paid fee less the amount calculated in proportion to the extent of the services rendered up to the date of rescission.

II. OPIS VALIDACIJE TKIVA PUPČANE VRPCE

1. Ukoliko je biološki materijal pohranjen u Laboratoriji, a Klijenti nisu odabrali nijednu drugu uslugu koju nudi FCS, početak izolacije multipotencijalnih mezenhimskih matičnih ćelija u akreditiranoj laboratoriji u obavljanju usluge Validacija tkiva pupčane vrpce održat će se u roku od 10 meseca od datuma potpisivanja ovog Aneksa. Inače, posebno kada su Klijenti odabrali i druge usluge koje pruža FCS ili kada je biološki materijal pohranjen na drugoj lokaciji, FCS ima pravo promijeniti gore navedeni datum početka pružanja usluge, posebno da produži vrijeme potrebno za izvršavanje druge usluge po izboru Klijenta ili transportovati detetov biološki materijal u odgovarajuću akreditovanu laboratoriju koja pruža uslugu. U tom slučaju, FCS će obavijestiti Klijente o novom roku za uslugu.

2. Implementacija Validacije tkiva pupčane vrpce uključuje odmrzavanje jednog dela pupčane vrpce koji su pohranjeni od strane kupaca, koje Kupci nalažu i izjavljuju svjesni da se odluka u vezi s tim ne može povući ili opozvati. Osim toga, Korisnici potvrđuju da u slučaju neefikasnosti usluge pristaju na odlaganje onog dela pupčane vrpce koji je korišten za obavljanje usluge. U meri u kojoj to dozvoljavaju obavezne odredbe zakona, FCS neće biti odgovoran za gubitak dela pupčane vrpce zbog gore navedenog razloga i neefikasnosti usluge validacije tkiva pupčane vrpce. Odlaganje dela pupčane vrpce ne uključuje nikakve dodatne naknade za kupce. Pod neefikasnošću usluge podrazumeva se neuspeh da se izoluje najmanje 0,5 miliona matičnih ćelija. Kao rezultat uspešnog izvršenja naručene usluge biće kreiran uzorak sa izolovanim matičnim ćelijama koji se, pod uslovom da se izoluje najmanje 0,5 miliona matičnih ćelija, šalje na čuvanje. Kao potvrdu usluge, FCS će kupcima poslati sertifikat koji potvrđuje broj izolovanih živih matičnih ćelija u elektronskom obliku.

3. Ako matične ćelije nisu izolirane iz dela pupčane vrpce u količini navedenoj u stavu 3, potvrda se neće izdati. U tom slučaju, korisnik će dobiti informaciju o neefikasnosti usluge na navedenu e-mail adresu.

3.1. Ako matične ćelije nisu izolirane iz dela pupčane vrpce u količini navedenoj u paragrafu 3 i kada su roditelji voljni i gdje je to moguće da dete ili pacijenti budu rođaci deteta (samo detetova biološka braća i sestre, biološki roditelji deteta i biološki djedovi i bake) podvrgnuti se eksperimentalnom medicinskom lečenju lekom za naprednu terapiju mezenhimskih matičnih stanica od materijala počasnog donatora ako je takav materijal dostupan, FCS garantuje Roditeljima da će zdravstveni subjekt koji sprovodi eksperimentalni medicinski tretman roditeljima odobriti popust zbog činjenice da je lek mezenhimskih matičnih ćelija iz pupčane vrpce (MSC ćelije) proizvela kompanija iz kapitalne grupe FCS. Popust će biti odobren za naknade koje proizilaze iz najviše pet lekova mezenhimskih matičnih stanica iz pupčane vrpce (MSC ćelije). Popusti se daju u količini, ovisno o vrsti biološkog materijala koji roditelji čuvaju kod FCS-a, a konačni popust određuje zdravstveni subjekt pojedinačno, u zavisnosti od ažuriranog troška proizvodnje količine ćelija potrebnih za eksperimentalni tretman. Informacije o već odobrenim popustima i spisak zdravstvenih ustanova koje ih pružaju mogu se dobiti od medicinskog direktora FCS-a.

4. Uslov za pokušaj implementacije usluge validacije pupčane vrpce je posedovanje potvrde o skladištenju smrznute pupčane vrpce u Laboratoriji ili drugim laboratorijama FamiCord Grupe i negativan rezultat analize krvi Roditelj-Majka u pogledu : HIV, HBV, HCV, sifilis.
