

Price Guarantee- peace of mind for years

In difficult times, peace of mind is the most important thing. This is why FamiCord Group offers the most unique service on the market - the Price Guarantee package. What does it mean? For those who buy this service, FamiCord Group guarantees that the price for annual storage and the annual fees for the Transplant Assistance or Transplant Assistance Plus packages will not change within 10 years of signing the contract.

The package is available only for new clients - it can only be purchased when the new contract is already concluded and it cannot be added later.

The package can be selected by customers who have decided to pay for the storage of biological material in an annual subscription manner and/or have chosen the Transplant Assistance or Transplant Assistance Plus package.

Price: 190 EUR once
